

# Sam Connelly

Bug Hunter, Test Engineer & Quality Coach

## RECENT EXPERIENCE

## PROFILE

Speciality: Mobile apps and exploratory testing; has worked on:

- [Tyro's Banking app](#)
- [Insight Timer's meditation app](#)
- [Google Maps](#)
- [Colonial First State's Superannuation app](#)

[Enjoys coaching developers and testers in improving their testing craft.](#)

[Prefers Data Science and User research over test automation code.](#)

Looking for: User Research experience in a collaborative team.

Interests: [Accessibility](#)      [Data Science](#)      [Mobile App Test Strategy](#)

## CURRENT ROLE

Commbank      Senior Software Engineer in Test (Mobile)      May 2019 to current

Superannuation and investment app, improved quality, coached developers in unit test strategies and built an analytics dashboard to support the app

Lead our mocking framework enhancements; we can test our app independently of any test environment, the business uses these mocks for support and marketing purposes

## TECH BINGO

Kotlin      API (Postman)

Python      Continuous Integration

Linux      JMeter

Swift      Javascript (Node)

C#      Agile (Extreme)

## ACHIEVEMENTS

[Spoken at 17 tech conferences \(3 international\)](#)

Taught robotics to over 1000 kids with no funding

Reduced bug backlogs by building dashboards

Leads the Sydney Testers meetup group

Participated in many Startup Hackathon weekends
